

COVID PRECAUTIONS

SOCIAL DISTANCING

Familiarise yourself with the current government guidance and the procedures that your accommodation provider and university have put in place to reduce the risk of spreading the virus. If you are unsure, please ask a member of staff.

LOCAL GUIDANCE

Your local area may be subject to restrictions. For the most recent information, scan to view guidance from Liverpool City Council.

CONTACT WITH OTHERS WITHIN THE BUILDING

Be aware of those around you when you are moving through the building. Avoid congregating in rooms and communal areas. If a facility is busy, please return at another time. If there are lifts in the building, follow the guidance from your accommodation provider. Wherever possible use the stairs. Please do not bring non-residents into the building.

HAND WASHING & SANITISER

Please wash your hands and use hand sanitiser regularly. This will help to keep touch points clean within the building and prevent potential spread.

SYMPTOMS? GET TESTED

Campus testing is available to University of Liverpool and Liverpool John Moores University students. Check with your university for details.

Other institutions can book a test at www.nhs.uk/coronavirus or call NHS 119. Inform your accommodation provider and university of your result.

NEED SUPPORT?

If you or someone you know is struggling, you can access support and guidance through your university. Student support teams can give advice about a wide range of issues and provide mental health services.
